

Professional Certification

CERTIFIED HEALTHCARE FACILITY MANAGER (CHFM)

PROGRAM

Discover your pathway to a thriving career in healthcare facility management!

Our Certificate in Healthcare Facility Management program is designed to meet the growing demand for skilled managers in Malaysia's rapidly expanding healthcare industry.

This program stands out as the first of its kind in Malaysia, offering a professional certification specifically tailored for healthcare facility management. What makes it truly unique is its incorporation of Shari'ah Compliance—a pioneering element not found in any other healthcare facility management certification worldwide.

WHY CHOOSE OUR PROGRAM?

Government-Backed Excellence

Our program is in line with the government's initiatives to position Malaysia as a global leader in healthcare facility provision and the premier medical tourism destination in Southeast Asia. Developed in collaboration with the Ministry of Health Malaysia and industry players, it fulfills the stringent requirements for becoming a Certified Healthcare Facility Manager in both the public and private sectors.

Recognized Accreditation

The program is recognized by esteemed organizations, including the Construction Industry Development Board (CIDB) Malaysia. Compliance with CIDB Malaysia's mandatory requirements for Facility Management Contractors for Healthcare Facilities (Category: F02) gives our graduates a competitive edge.

Endorsement and Recognition

The Ministry of Health Malaysia endorses our program, underscoring its credibility and relevance to the healthcare industry. Additionally, the International Advisory Council for Healthcare Facility Management acknowledges our program, enabling eligible participants to earn the esteemed Certified Healthcare Facility Manager professional certification.

Tailored Curriculum

Our curriculum and content are meticulously designed to address the specific needs and challenges faced by the healthcare industry. With a comprehensive range of modules, you'll acquire the knowledge and skills necessary to excel in managing healthcare facilities.

Language Flexibility

Our bilingual classes, conducted in both English and Bahasa Malaysia, cater to diverse learners and create an inclusive and supportive environment.

Flexible Schedule

We understand the demands of working professionals. That's why our classes are conducted on weekends and at flexible times, allowing you to pursue the program without disrupting your current commitments.

Practical-Oriented Approach

We believe in hands-on learning. Our program combines coursework and final assessments to ensure practical application of knowledge, preparing you for real-world challenges in healthcare facility management.

Experienced Faculty

Our modules are taught by highly qualified lecturers who bring a wealth of corporate and industrial experience to the classroom. You'll benefit from their insights and guidance as you navigate through the program.

Behavioural Observed Profiling

As a unique feature of our program, participants receive a Behavioral Observed Profiling report. This personalized assessment enhances self-awareness and provides valuable insights for personal and professional growth.

PROGRAM STRUCTURE AND REQUIREMENTS

Our program follows a structured framework and adheres to university protocols, thanks to our collaboration with the prestigious International Islamic University Malaysia (IIUM).

To ensure that participants meet the minimum entry requirements, we consider relevant academic qualifications and working experience. If necessary, an interview may be conducted, with the interviewers' decision being final.

Diploma holder in relevant fields from recognized institution by IIUM with minimum 1 year working experience, OR

Degree holder in relevant fields from recognized university by IIUM with minimum 6 months working experience, OR

Participants who do not meet the minimum entry requirements will be subjected to interview and the interviewers' decision is final.

MODULES OFFERED

01

Fundamental of Facility Management and Healthcare Facility Management

Gain a comprehensive overview of facility management and specialized knowledge in healthcare facility management. Learn about global trends and both clinical and non-clinical services in healthcare facilities.

02
